

CSP TELEMEDICINE *CARE SAVE PREVENT*

LONG LASTING REMOTE MONITORING
MEDICAL DEVICE

« FROM BEHAVIOR CHANGE
TO PATIENTS' AND CAREGIVERS' QUALITY LIFE IMPROVEMENT »

CSP TELEMEDICINE SRL
MILAN – ITALY
DR. MARCELLO RUSPI, PH – MEDICAL CHIEF AND FOUNDER

CSP TELEMEDICINE *CARE SAVE PREVENT* WORKS ON
TELEMEDICINE AND VIDEOMEDICINE SOLUTIONS

WE HAVE REALIZED A SHOCKPROOF & WATERPROOF MEDICAL DEVICE,
IN CLINICAL TEST PROGRESS AT THE NAMED CARLO BESTA
NEUROLOGICAL INSTITUTE IN MILAN

WE ARE MONITORING THE BEHAVIOR OF 71 PATIENTS SUFFERING
FROM ALZHEIMER'S AND THE RELATED STRESS OF THEIR CAREGIVERS

WE CURRENTLY WORK WITH THE
ITALIAN ALZHEIMER'S ASSOCIATION

THANKS TO SPECIFIC (PATENT PENDING) ALGORITHMS AND A “BONUS MALUS THEORY”
THE DEVICE WORKS FOR SEVERAL MONTHS WITHOUT CHARGING THE BATTERIES

A BEACON MAKES A VIRTUAL FENCE, INSIDE OF WHICH WE HAVE
INFORMATION ABOUT THE PATIENTS’ BEHAVIOR

OUT OF FENCE, THE CAREGIVERS RECEIVE PROMPT ALERTS ON WANDERING, ELOPEMENT,
GOING/BECOME LOST, EPILEPTIC SEIZURES AND FALL DOWN,
BODY AND ENVIRONMENT TEMPERATURE, ETC

A 24/7 OPERATION ROOM MANAGES THE RISKS
AND SUPPORTS BOTH PATIENTS (IN-OUT CALLS / SOS BUTTON) AND CAREGIVERS
